Linda, here is the first correspondence where the Tribes asked about a joint post closure permit. We are still wanting to stress the importance of having a joint permit.

Kelly

Just checking in with you that we will be getting our comments to you by Dec 7<sup>th</sup> on the Phosphine Monitoring Section. Also wanted to see if there is a specific process that we need to do to issue a joint Post Closure Permit. If we don't get a joint one, FMC will never comply with Tribal Jurisdiction. Give me a call so we can talk about this.

Thanks

Kelly
